Dacia has signed a partnership contract with ASIBAN

Dacia has signed a partnership contract with ASIBAN, a company owned by the French insurance group Groupama. The contract will enhance services provided within the Dacia network of certified car repair shops.

Under the contract, ASIBAN will provide insurance services for clients owning CASCO and RCA insurance policies, for all Dacia car repair shops throughout the country.

The working method resulting from this new partnership will improve the repairer - insurer relationship and will reduce the repair period of the vehicle, and, consequently, the unavailability period of the concerned vehicle.

ASIBAN is the first insurance company to undertake collaboration with the repairer network authorized by Dacia.

The partnership has been initially concluded for one year and is applicable nationwide, for all ASIBAN subsidiaries and agencies, as well as for all Dacia authorised repairers.
