On 1 June, invited by Dacia

Children made drawings on cars at Odeon Theatre

On Friday 29 May, just before the International Children's Day, at Odeon Theatre, children drew paintings on Dacia cars at the end of the musical "Chopin's childhood" staged by the Classic is Fantastic team.

Within this project with a four year tradition, Dacia made a surprise to the children present at the show. Not only was each of them offered a gift, but they also enjoyed being able to draw freely on the Dacia Logan 10 years and Dacia Sandero Stepway cars and let their imagination frolic. Cristiana Radu joined the children, as illustrator of some well-known children books such as "Călătorie printre ierburi și lumină" ("A trip amongst herbs and light") by Iulia Iordan and "Domnișoara Poimâne și joaca de-a timpul" ("Miss The-Day-After-Tomorrow and playing at time") by Adina Rosetti. With Cristiana's help, children expressed their own talent, wrote thank-you messages to Dacia and Odeon Theatre and even drew the characters of the play they had watched.

"Classic is Fantastic" is one of the many educational projects in which Dacia is actively involved, aiming to support children's cultural development. **Dacia has a tradition in associating with the most important cultural events in Romania, being a partner of the "Gopo" Awards, the Gaudeamus Book Fair, the concert tours "The Violin Duel", "Enescu's Violin in Villages" and "The Golden Flute".**
